Dear Mr Peinke

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION ISSUED ON 06 NOVEMBER 2019, AS AMENDED FOR THE DEVELOPMENT OF 100 MW BLOEMSMOND 5 PHOTOVOLTAIC SOLAR FACILITY WITH A BATTERY ENERGY STORAGE SYSTEM OF UP TO 500MWH ON PORTION 5 AND PORTION 14 OF FARM BLOEMSMOND 455 WITHIN KAI! GARIB LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE.

The Environmental Authorisation (EA) issued for the abovementioned application by this Department on 06 November 2019, The EA amendments dated 17 February 2021 and 25 March 2021, your application for amendment of the EA received by the Department on 25 October 2024 and the acknowledgement letter dated 11 November 2024, refer.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5 of the Environmental Impact Assessment Regulations, 2014 as amended, has decided to amend the EA dated 06 November 2019, as amended as follows:

Amendment 1: Amendment to extend the validity period of the EA by additional five (05) years from 06 November 2024 to 06 November 2029

Condition 7 on Page 8 of the EA dated 06 November 2019 as amended, is amended as follows

"This activity must commence within a period of ten (10) years from the date of issue of this authorisation (i.e., the authorisation lapses on 06 November 2029). If commencement of the activity does not occur within that

MS

period, the authorisation lapses and a new application for Environmental Authorisation must be made in order for the activity to be undertaken”.

Reason for amendment:

The holder of the EA has been unsuccessful in previous bidding rounds of the REIPPPP and private offtake (wheeling) due to the constraints on transmission network in Northern Cape. The EA holder is in an unfortunate position where essentially, they have to wait for Eskom/National Transmission Company to build new 400 kV powerlines from the Northern Cape Supply Area out towards other provinces. Various of these strategic Transmission powerline upgrades have already commenced and are at various stages of progress from environmental impact assessments through to final servitude acquisitions and detailed designs. It is estimated that it may take at least another 3 to 5 years to establish some additional Transmission infrastructure that will allow some projects to connect in the Northern Cape Supply Area. Based on the above information the EA holder therefore requires an extension of the EA in order to participate in upcoming rounds of the programme when the Northern Cape Transmission network unlocks.

Amendment 2: Amendment to change of physical and postal address of Holder of EA
