Subject: ENVIRONMENTAL BASIC ASSESSMENT FOR PLETT LAGOON ESTATE ON THE REMAINDER OF ERF 6503, PLETTENBERG BAY ,, BITOU MUNICIPALITY

Good day

The above subject matter submitted to this office for comments refers

We confirm that the proposed development triggered the requirements for a water use authorization in terms of sections 21 (c) & (i) of the National Water Act, 1998 (Act 36 of 1998) (NWA).

An application for the water use authorization as required in terms of section 22 of NWA was lodged and its processing is underway.

The water uses applied for are therefore required to not commence prior issuance of the authorization.

This office may be contacted for any information linked to the water use licence application

Kind regards
Rabokale Mphahlele
